

Shamanic Journeying

A one-day class to learn basic shamanic skills led by Ana Larramendi

Saturday, April 22, 2023. CLASS HOURS: 9:30am to 5:30pm

Located near rural New Glarus, WI

The Shamanic Journey is altered spiritual state that enables the shaman to communicate with helping spirits and receive spiritual information. Hank Wesselman PhD, a Paleo Anthropologist, wrote in his book, "*Awakening to the Spirit World*"; "All true shamans... possess the ability to go into trance very easily, which allows them to make contact with the Hidden World. Trance in this sense is not an unconscious state, but rather a state of expanded consciousness in which the individual intentionally 'shifts' his or her focused attention away from the everyday world and enters into the alternate realm of the Spirits"

The practice of shamanic journeying is an ancient method of accessing spiritual wisdom by developing a means of communication with helping spirits and animal allies. In this workshop we will learn certain core principals of shamanic journeying which will enable us to meet with our helping spirits, communicate with them, and receive personal and profound information for guidance and inspiration. These tools can be used for personal growth as well as healing of the self and others. If you are curious about shamanism and would like to have an opportunity to learn this ancient visioning practice, join us for a wonderful day of journeying and exploration!
